

23rd June 2005

Rotary Club of Parramatta
ATT: President Liz Mackintosh

Dear Liz

Re: Community Service Report

Firstly I would like to thank you for inviting me to be on your Board and it has certainly been an interesting past year. Some of our Community Services have encroached on other Directors and Committees, however, I am sure it has worked out as it is a team effort.

The Bowl Scan was highly successful and we distributed and collected over 250 bowl scan kits to the Parramatta and Wentworthville areas through the help of Tilly Van der Linden and Peter Panos.

The Salvation Army for Red Shield Appeal did not require us this year, I think they took on a different approach, although, they acknowledged our participation over the past years.

The Queens Road Gatehouse Project has started with plenty of Rotary Volunteers attending two working bees to tidy up the inside and outside areas. Although, like any historical restoration it takes time, we are still waiting for the Parramatta Council to come back to us about certain things so we can move forward with everyone next year.

The Bunnings BBQ was very successful again helped by the efforts of Doug, Joan and Brian who really pushed our club name into the community.

I also enjoyed helping to organize the Rotary Health Research Race Day at Rosehill, which was highly successful and I am sure we will be attending next year.

Yours in Rotary

IAN WOOD
Community Service Director

P.S. Liz, I am sure the changeover is once again to be a great night.
